

| Boron (B) | <br>% |
|-----------|-------|
|           | <br>  |

| Manganese (Mn)  | . 0.8% |
|-----------------|--------|
| Copper (Cu)     | 0.4%   |
| Cobalt (Co)     |        |
| Molybdenum (Mo) |        |
| Zinc (Zn)       | 0.7%   |

**Ingredients:** Sea salt\*, boric acid, manganese sulfate, copper sulfate, zinc sulfate, liquid fish, fulvic acids, molasses, humic acids, cobalt sulfate, sodium molybdate, seaweed. \* derived from sea water concentrate

**WARNING:** The use of this organic input on other than intended crops or at rates other than those specified or recommended by your agronomist may result in injury to boron-sensitive crops.

**WARNING:** The use of this organic input on any crop other than those intended may result in serious injury to said crop and the application of molybdenum may result in forage crops containing levels of molybdenum which are toxic to ruminant animals.

## Soil and Foliar Directions for Use:

**Important:** Use 50 mesh or larger screens on injection and spray nozzles.

**Notice:** Store above freezing (>32°F/0°C) and below 90°F/32°C. Once concentrate is added to spray or drip tank, apply solutions within 24 hours. This product can be tank mixed with most products. A bench test is strongly recommended.

**Dilution:** Dilute the following recommended amounts of product with 10 to 20 gallons of water.

Intended Crops: Intended to be used on most fruit, vegetable, row crops and forages. Monitoring by tissue testing recommended.

Application Rate: Apply 1-2 pints/acre or consult with your crop consultant for recommendations.

Condition of Sale/Warranty: Manufacturer's and Seller's obligation is limited to the replacement of products due to defective quality only. Neither Seller of Manufacturer shall be liable for any damages directly or consequently arising from the use of this product. All suggestions or directions made herein are based upon our experience and are believed to be accurate. No other guarantee or warranty is made or implied by contract, statute, common law, merchantability, fitness for a particular purpose or otherwise, as conditions and methods of the use of products herein described are variable (e.g. weather, etc), and beyond our control. This information and any products are provided on the conditions that the user will evaluate them for himself as well as any recommendations to determine their suitability for his own purposes before adoption. User/grower should contact a certified agronomist and/or relevant regulatory agency (e.g. State Dept of Agriculture, Extension Service, AAPFCO, Land Grant University, etc.) for their professional assessment on the use of such products, prior to use.
